Sunrise Multispecialty Hospital

Emergency Policy

Emergency Services

The Emergency Ward of Sunrise Multispecialty Hospital is located on the ground floor and is open 24 hours a day, 7 days a week. No prior appointment is needed. Ambulance service is available on call at 0124-4000-108.

When to Come to Emergency

Go to the Emergency Ward immediately for chest pain, difficulty in breathing, severe bleeding, stroke symptoms (face drooping, arm weakness, slurred speech), loss of consciousness, serious accidents or burns, high fever with seizures, and severe allergic reactions.

Triage Process

Every emergency patient is assessed by a triage nurse on arrival. Patients are prioritised by severity, not by arrival time. Critical patients are treated first. Red means immediate care, yellow means urgent care within 30 minutes, and green means non-urgent care.

Admission and Payment in Emergency

Treatment will never be delayed for lack of payment or documents in a life-threatening emergency. Formalities such as registration and insurance verification are completed after the patient is stabilised. Please keep a government photo ID and insurance card ready if possible.

Ambulance

Ambulance charges are Rs 1,500 within 10 km and Rs 50 per additional kilometre. ICU ambulance with a doctor on board costs Rs 4,000 within 10 km. Ambulance arrival time within city limits is typically 15 to 20 minutes.

Medico-Legal Cases

Accident, assault and poisoning cases are treated as medico-legal cases. The hospital informs the police as required by law. Treatment is not delayed for police formalities.
